

Energy Battery Pack Consent Form

Introduction

The Energy Battery Pack Injection is designed to boost energy, reduce fatigue, and support overall wellness. It includes a combination of B-Complex vitamins and B12, with a small amount of lidocaine to minimize injection discomfort.

Recommended Uses

- Energy
- Fatigue
- Fibromyalgia

How to Prepare for Your Injection

1. Dietary Preparation
 - No specific dietary preparation is required. It is recommended to have a light meal or snack before your appointment to prevent a lightheaded feeling.
2. Laboratory Tests
 - Laboratory tests are recommended for ongoing care. If you have recent lab results, please bring them with you.
 - If you are interested in new laboratory tests, please mention this during your consult or prior to your visit.
 - **Note that insurance coverage for lab work is not guaranteed, and you may be responsible for the cost.**

Contraindications and Precautions

- Please let staff know if you are allergic to any components of the injection or have had a reaction in the past.
- Caution with fluid overload: Inform the staff if you have a history of heart failure or other conditions that might be exacerbated by fluid overload.

What to Expect on Arrival and During the Injection

1. Vital Signs Monitoring
 - Your vital signs will be checked before and after the infusion to ensure your safety and monitor any changes.
